BROOKS WOULD PROVIDE WORK FOR JOBLESS

**Says Unemployment Is
Our Foremost
Problem**

Spring Valley, Ill., Oct. 7.—(AP)—C. Bayland Brooks, Republican gubernatorial candidate in an address delivered here tonight said "unemployment is our foremost problem."

"If I am elected governor," Brooks told a Bureau county Republican meeting, which was one concluding his downstate campaign, "I will call together leaders of labor and industry for a survey of unemployment in our state."

Brooks asserted the administrations at Washington and Springfield had halted re-employment of the country's idle by breaking down tariff walls and imposing tax burdens.

"Taxes can and will be reduced if I am elected," he said. "Rigid economy and adherence to business principles, and the elimination of a horde of unnecessary payrolls will make this reduction possible."

"There must be no increase in real estate taxes for state purposes, and sufficient money must at all times be provided for the care of our unemployed needy and aged."

Brooks asserted Gov. Horner had collected \$144,000,000 in sales tax the past three years in the name of relief, but had spent only \$66,500,000 of the amount for relief.

"The administration at Springfield has given us the 3 percent sales tax which took x x x an average of \$33 the past year from each family," Brooks declared.

"Food and necessities of life must be exempted from the sales tax at the earliest possible moment. This food and clothing tax takes its heaviest toll from the wage earner."

"If elected governor, I will at once ask the legislature to permit the people, by their vote, to exempt food and necessities from the sales tax."

Brooks also spoke at Staunton.

Republicans Will Try to Win Back Seats in Assembly

**Statewide Campaign Will Be
Launched Next Week
Thruout Illinois**

Chicago, Oct. 7.—(AP)—Illinois Republican headquarters announced today a statewide campaign would be launched next week in an attempt to win back working majorities in the house and senate.

State Rep. Dennis J. Collins of DeKalb, a director of the Republican joint legislative campaign committee, said two caravans would begin a tour of the state Monday, each equipped with a sound truck and accompanied by a national speaker assigned from the speakers' bureau of the Republican national committee.

The drive will continue until Oct. 31, he stated, with appearances to be made in more than 60 counties where the legislative fights are keenest.

Under the program approved by the committee, itineraries will be arranged by county central committees and other local Republican organizations. Candidates for both the house and senate, Collins said, would join the caravans when they enter their home districts.

There are now 16 Republicans and 35 Democrats in the Senate. Collins said his party needed a membership of 26 for a working majority.

In the house there are 69 Republicans to 84 Democrats, with 77 needed for a working majority. Collins expressed confidence that the Republicans would be able to gain the eight memberships needed for control of the house.

Courting Days Again for Brandeis

Summer recess over, Justice Louis Dembitz Brandeis has returned to his duties as an associate justice of the U. S. Supreme Court. Here the famed liberal is shown with his wife as he prepared to leave his Washington home for the court chambers.

Government Will Fight to Retain Processing Tax

**Collected Billion Dollars
Under Act Before It Was
Held Invalid**

Washington, Oct. 7.—(AP)—Federal attorneys prepared today to battle in court to retain about \$1,000,000,000 of processing taxes collected under the outlawed agricultural adjustment act before the Supreme Court invalidated that law.

Paced by a decision by Federal Judge Luther B. Way, at Norfolk, Va., yesterday, that a processor could recover taxes paid prior to the Supreme Court ruling, New Deal legal experts conceded they were confronted by a series of court battles.

Already preparing to appeal the Norfolk decision, attorneys said it was the first against the government on this point. Previously an Alabama federal court had denied recovery to four processors in similar suits, they said.

About \$180,000,000 in processing taxes impounded by the courts prior to the Supreme Court's ruling already had been returned to packagers and other processors. But, this money never had been paid into the treasury.

The Supreme Court ordered the return of these taxes, but did not rule on whether the government had to repay taxes already collected.

Almost \$1,000,000,000 actually had been paid into the treasury prior to the high court's decision, and the department said 285 suits had been filed for return of part of this.

After the agriculture adjustment act was outlawed, Congress enacted tax measures in an attempt to protect taxes already collected and to recover part of the \$180,000,000 of impounded taxes returned to the processors.

European Peace Is Threatened

Geneva, Oct. 7.—(AP)—Some League of Nations sources expressed the opinion tonight an event of serious importance to European peace might result from Russia's warning she might end her collaboration in European non-intervention in Spain.

Particular concern was voiced in these circles regarding the effect the announcement might have on the stability of the French people's front government of Premier Leon Blum, which gained power through a temporary alliance of Socialists, Communists, Radical Republicans and other groups.

ROB SHOPKEEPER

Decatur, Ill., Oct. 7.—(AP)—Police today reported that three men escaped with \$2,000 after holding up a shop operated by Emmett Byers at the edge of the Decatur business district.

The men were reported to have driven toward Springfield in an automobile. Police said Byers operated a race booking agency.

Armed with revolvers, two men entered the second-floor establishment and obtained the money while a third waited in the car. Virgil Byers, son of the owner, and another man were threatened as the men made their getaway.

COMMITTS SUICIDE

Springfield, Ill., Oct. 7.—(AP)—Clinton V. Ruble, employee of the Alton Railroad for the past 20 years, died today from a bullet wound in the head, which police said was self-inflicted.

Ruble, assistant ticket agent, was found fatally wounded in a ticket San Francisco. He was 48 years old and had been employed by the railroad for 20 years.

Former Joliet Beer Baron Is Shot, Wounded

**Lawrence "Butch" Crowley
Is Near Death from
Bullet Wounds**

Joliet, Ill., Oct. 7.—(AP)—Lawrence "Butch" Crowley, whose lavish mode of living during the prohibition period caused him to be known as the beer baron with the gold door knobs, was reported near death tonight from bullet wounds.

He was shot down by a pair of gunmen early in the day as he stepped from his 16-cylinder limousine in front of his \$50,000 mansion.

Rushed to St. Joseph's hospital, surgeons operated to remove a bullet from his leg and another that punctured his bladder.

Crowley lapsed into a coma later, precluding questioning by Chief of Police Nicholas Formano, who went to the hospital to take a statement from the wounded man.

Captain Ervin Boe said he had suggested to Crowley shortly after he was shot down that the attack might have been the outgrowth of strife between two slot machine syndicates in Will county. But Crowley was quoted as asserting:

"I'm just a plain business man. I don't know why they plugged me."

Slot machines here have been operated on a boom-time scale since last April, when a court injunction restrained police from interfering.

Crowley told Captain Boe he was devoting all his time to an automobile business. He said he did not recognize the two young men who stepped from behind trees and fired five shots at him.

The attempted assassination occurred in one of Joliet's fashionable residential districts. It was there that the 48-year-old victim built his palatial home after he quit his job as a railroad switchman to operate a prohibition-time brewery at Elgin and Pekin.

Soon the tale spread that the doors were equipped with gold knobs.

In 1924 he was convicted of attempting to bribe a federal prohibition agent and sentenced to six months in the Bridewell at Chicago. Subsequently, he settled a \$135,000 federal income tax claim for \$65,000.

Without Clues In Murder Case

Rockford, Ill., Oct. 7.—(AP)—Investigators said tonight they were without a single clue in the slaying of Thomas Rumore, alias Petta, 48-year-old WPA worker, who was shot to death here last night.

Police questioned George Licall, 45, manager of a celery company, during the day and announced it had been established he was in his own home at the time of the shooting.

Licall was shot in the neck last July as he sat in his automobile. Rumore, tried on a charge of assault with intent to kill Licall, was acquitted.

Rumore was slain while putting his car in a garage at the rear of the Peter Capace home, where he lived.

NAMED PRESIDENT

Minneapolis, Oct. 7.—(AP)—Clark Hempstead, vice-president and secretary of the Pillsbury Flour Mills company of Minneapolis, was elected president today by the board of directors, to succeed H. H. Whiting, who died Saturday from injuries received when a horse fell with him.

EDUCATOR DIES

Davenport, Ia., Oct. 7.—(AP)—Frank L. Smart, 74, for 29 years superintendent of Davenport schools, died this afternoon at his home after an extended illness.

JACK HAYS SUES SHIRLEY TEMPLE FOR \$1,000,000

**Contract Signed In
1932 Is Basis For
Suit**

Los Angeles, Oct. 7.—(AP)—Shirley Temple, child screen star, was sued today for \$1,000,000.

Jack Hays, film producer, who brought the suit, named as co-defendants with Shirley her father and mother, George and Gertrude Temple; Twentieth Century-Fox Film Corporation, the California bank and the California trust company.

Hays cited a contract signed October 7, 1932, as the basis for his suit. This contract, his complaint asserted, was signed by the Temples and approved in court and under it he was to have the right for two years to direct Shirley's film training and she was to appear exclusively under his sponsorship.

The Temples repudiated this contract October 1, 1933, he declared, and refused to permit him to continue with Shirley's management which they turned over to Twentieth Century-Fox.

Hays seeks \$500,000 damages immediately and an additional one-half of Shirley's earnings from radio, advertising contracts, endorsements of commercial articles and other incomes, estimated at another \$500,000.

The complaint asserted that Mr. and Mrs. Temple brought Shirley to Hays and asked him to train her for pictures. He obtained coaches for her, he declared, and cast her in six one-reel baby star pictures for educational comedies.

At that time her earnings were given as \$7.50 or \$10 a day, if she played leads.

Now she has a potential value, as a child actress, of five million dollars and her earnings since she won stardom have approximated two million dollars, Hays asserted.

According to the terms of the contract, declared Hays, he was to receive half of all money earned by Shirley over \$50 a week.

The bank and the trust company were named co-defendants. Hays' lawyers said, because George Temple is an officer of the bank and a large part of her earnings have been placed in bank stock.

Soviet Russia May Seek Free Hand in Spain

**Ultimatum Declares Nations
Must Halt Assistance
To Insurgents**

Moscow, Oct. 7.—(AP)—The Soviet Union in an ultimatum issued tonight declared it would seek again a free hand in Spain unless Portugal, Italy and Germany immediately halt military assistance to the Spanish insurgents.

The ultimatum was delivered by Moiseyevich Kagan, Soviet representative on the non-intervention committee, to representatives of the signatory countries in London.

"If violations are not stopped immediately, the Soviet government will free itself from any obligations to the agreement," the ultimatum said.

Kagan specifically charged Germany, Italy and Portugal with sending arms and war planes to the insurgents in direct violation of the international neutrality pact which they signed.

"The Soviet government," his statement declared, "cannot consent to conversion of the non-intervention pact into a screen for concealing military assistance rendered the rebels against the government by some participants of the pacts."

"The rebels now possess many bombing planes of German and Italian origin which did not belong previously to the Spanish army," he declared, "and the testimony of witnesses prove that supplies of arms from Portugal continue."

His statement, which he said was delivered on instructions of the Russian government, charged that 14 planes have been sent from Hamburg to Seville through Portugal; 12 large German planes have been sent to Seville; and that Italian poison gas had been sent from Lisbon to the Spanish frontier.

WILL APPEAL CASE

Springfield, Ill., Oct. 7.—(AP)—Communists in Illinois, unsuccessful in previous attempts to get their electors' names on the November election ballots, indicated today an appeal might be taken to the United States supreme court.

The action was considered probable by Hart E. Baker, Chicago attorney, who filed in U. S. district court a petition for appeal to the circuit court of appeals at Chicago from Justice Charles G. Briggle's dismissal of a temporary injunction suit sought to restrain the county clerks from omitting the names.

Baker said he had warned county clerks that printing of the ballots should be delayed.

Ben Ferguson was in the city yesterday from Orleans.

SWEDISH FLIER IS RESCUED BY TRAWLER IMBRIN

**Contract Signed In
1932 Is Basis For
Suit**

Valencia, Ireland, Oct. 7.—(AP)—Forced down in the Atlantic on an attempted direct flight from New York to Stockholm, Kurt Bjorkvall was rescued tonight by the trawler Imbrin off the westernmost point of Ireland.

The first word from the long overdue Swedish aviator, who had not been reported since he took off from Floyd Bennett Field at 6:35 a. m., C. S. T., Tuesday, came in a wireless message from the trawler.

"Bjorkvall saved (saved)," it said. "The 31-year-old flier, the trawler's skipper said, was 'minding his apparatus.'"

"Will attempt take in two to Valencia tomorrow," added the message received here. Valencia is an island on the western coast of southern Ireland.

(Bjorkvall's flight ended, it was estimated, about 2,275 miles from New York and approximately 1,000 miles short of Stockholm, his goal.)

In the Swedish city a huge reception had been planned for the aviator, who said before he left New York he carried with him pictures of 15-year-old Maud Dickson, a Stockholm girl, and hoped to announce their engagement.

(She was waiting with his widowed mother, Mrs. Hanna Bjorkvall, in Stockholm. Both had had to repress their emotions during the long hours when no word came from him.)

(Miss Dickson declared she had not "heard of any engagement," but her friends winked knowingly.)

Says Roosevelt Doesn't Want To Fight Communists

**John D. M. Hamilton Claims
New Dealers Brought
About Withdrawals**

New York, Oct. 7.—(AP)—Republican Chairman John D. M. Hamilton asserted today that new deal leaders brought about the withdrawal of the Democratic senatorial and gubernatorial candidates in Minnesota in favor of the Farmer-Labor candidates because President Roosevelt "doesn't want to fight the communists."

"This was right down Mr. Roosevelt's alley," Hamilton told reporters. "It came in four steps. The Communist party in Minnesota endorsed the Farmer-Labor party. Second, Roosevelt doesn't want to fight the communists. Third, it was necessary to get a united front. And fourth, to achieve the united front, the Democratic party was dumped. There, you've got a perfect chain."

He reiterated his challenge to the president to give "government investigators a free hand to root out the alien agents of communism in this country."

"Have you discussed your various statements on communism with Governor Landon?" Hamilton was asked at his press conference.

"No, I haven't."

"Do you know whether your views on this subject conform to the views of Governor Landon?"

"You'll have to ask Governor Landon," he replied.

Hamilton, who has devoted much of his time during the last few weeks to the drive for campaign funds, said the party was having difficulty raising money.

"We haven't had the response which we think is necessary to meet the resources of the new dealers," he said.

He predicted Landon would win at least 300 electoral votes or 34 more than the 266 needed for election.

Police Group Names Officers

Davenport, Iowa, Oct. 7.—(AP)—Lieut. E. C. Dunstader of Detroit was elected president of the Associated Police Communications Officers for the coming year at the closing session of the national convention here today. His choice was unanimous.

Others elected were: Lieut. George M. Kinsey of the Ohio state police, first vice president; William H. Nelson of Niagara Falls, N. Y., second vice president; Lieut. E. E. Fisher of St. Louis, retiring president, secretary and treasurer; and E. F. Brown of Des Moines, a member of the Iowa high patrol, sergeant-at-arms.

New York was chosen as the 1937 convention city. The convention voted to hold a four-day meeting instead of three, because of the large amount of business to be transacted.

OFFICERS HELD

Taihou, Formosa, Oct. 7.—(AP)—Three officers of the British submarine mothership Midway were held today for examination by police under charges of photographing Japanese fortifications.

The photographs were made from the ship now anchored here, police alleged.

Redheaded Ducks Protected Under Federal Statute

**Gunners Must Look for Stop
Signs on Duck Traffic
Lanes**

Washington, Oct. 7.—(AP)—Gunners must look for the red stop signs on the traffic lanes of duck skyways this waterfowl season.

The red head of a flying migrant will be a signal for hunters to hold their trigger finger and obey a new law forbidding the shooting of canvasbacks and redheaded ducks.

The thirty-day opening season on waterfowl begins Saturday, October 10, in nine states—Maine, Michigan, North Dakota, South Dakota, Minnesota, Montana, New Hampshire, Vermont and Wisconsin.

The canvasbacks and redheads have similar gray body coloring and brick red heads, so the appearance of a red noggin in the sky will caution marksmen to refrain from firing.

They are bigger birds than most other ducks, faster fliers, paddle the water and then skim along the surface before rising and generally fly more on a level line, with less rising and dipping than other species.

The weather bureau here today declined to forecast probable conditions for the early days of the season. "The weather changes so quickly in those northern tier states it would be foolish to hazard a guess," one official said.

It is probable, however, that rainy days will rob the hunters of some shooting time. The average number of rainy days during this hunting season in Maine, Michigan, New Hampshire and Vermont is nine. Wisconsin has eight, Minnesota six, Montana and South Dakota five and North Dakota four.

Sunday shooting is prohibited in Maine, Vermont and New Hampshire. The bag limit on ducks is ten.

The greatest number of birds is in Minnesota, biological survey experts say.

Answering critics who refer to the 200,000 or more canvasbacks seen last year on the Susquehanna river flats in Maryland and object to the closed season on these, Chief Ira Gabrielson of the biological survey today said these flocks represented "a very large percentage of all canvasbacks left in the world." He said closed season was necessary to bring back their numerical strength.

Charged with Manslaughter

Chicago, Oct. 7.—(AP)—A coroner's jury investigating the shot-gun slaying of Dr. Stanley Nowak, Hammond, Ind., dentist, Sunday night, recommended today that Clarence Sutton, 36-year-old admirer of Nowak's wife, Louise, 28, be held to the grand jury on a charge of manslaughter.

The dentist was slain in Sutton's home in suburban Calumet City, just across the Indiana line from Hammond during what police said was a "showdown" on Dr. Nowak's charge that Sutton had been "running around" with Mrs. Nowak.

Assistant State Attorney Alexander J. Napoli said he expected to go before the grand jury tomorrow and ask for an indictment against Sutton, who testified at the inquest that he fired after Dr. Nowak made a gesture as if reaching for a pistol, and denied he ever threatened the dentist.

SENT TO JAIL

Calio, Ill., Oct. 7.—(AP)—Convicted by a federal court jury of violations of the internal revenue laws, three Harrisburg men were sentenced to jail terms by Judge Fred L. Wham today.

Otto Price was given a term of five months, Prochie Goodson of four months and William Goodson of three months.

Alfred Smith, a Negro, charged with selling moonshine liquor to a transient work camp near Cache, Ill., was found guilty and sentenced to a year and a day at the federal reformatory at Chillicothe, O.

MERCURY DROPS

Cheyenne, Wyo., Oct. 7.—(AP)—The mercury dropped to 24 degrees above zero in Cheyenne early today. Other sections of the state also recorded sub-freezing temperatures.

LOYAL SPANISH TROOPS PREPARE FOR LAST STAND

**Throw Up Barricades,
Dig Trenches In
Madrid Streets**

Madrid, Oct. 7.—(AP)—Socialist and communist defenders dug in tonight for "last ditch" street fighting if their comrades outside the capital fail to stem the advancing Fascists.

To speed the work of scoring the streets with trenches and throwing up barricades, the government set up a fund of \$650,000.

At the same time cabinet ministers met with President Manuel Azana today to discuss the military service of all men in the 1932 to 1935 classes from Almeria and Huesca Provinces. Meanwhile, poorly-clad government fighters were battling in the cold to hold defense lines west of Madrid against a frontal attack by Fascist forces in the Avila sector.

A Fascist flanking movement south of Navalperal, the war ministry said, threatened to trap the government force between two bodies of insurgent troops.

Brisk fighting was reported near Santa Cruz Del Retamar, on the Maqueda-Madrid highway. The approach of winter added to the hardships of the defenders, many of whom were clad in tattered civilian clothes.

The war ministry said the militia was holding its ground in the west and a two-day battle had resulted in the recapture by government troops of the strategic town of Sigüenza, 43 miles northeast of Guadalajara.

Officials admitted Fascist artillery fire had cut communications on the western front between government outposts and the supply base at Cerberos. The base is just south of Alcala.

berche river dams which the government opened a fortnight ago to flood out advancing insurgents.

"The ministry reported a government patrol south of Talavera de la Reina had captured Villa Tebrosa and seized a train of supplies after a battle in which 22 Fascists were killed."

In Cordoba province, where insurgents were pounding at Cerro Muriano, Gen. Jose Meila was replaced by Gen. Juan Garcia Gomez as government commander.

Officials here admitted, as they began new efforts to brace Madrid's defense, the civil war was becoming "daily more ruinous" with quarrels over distribution methods hampering the work of rationing food supplies to the capital's civilians.

China Clipper Hops Off With 5 Passengers

**Newspapermen Will Make
Long Ocean Journey
To Manila**

Alameda, Calif., Oct. 7.—(AP)—The China Clipper, carrying five newspapermen, hopped off at 3:25 p. m. (6:25 p. m. EST) today for Honolulu on a preliminary passenger-observation flight before inauguration of passenger service to Manila on Oct. 21.

The 25-ton craft roared down the by and took off after a 50-second run, heading out the Golden Gate to Honolulu, 2,400 miles away, with the first passengers, outside of Pan American Company personnel, to make the long journey.

Captain Ralph A. Dahlstrom, veteran flier, was in charge of a crew of six.

Newspapermen making the flight were Charles E. Harner of New York, for The Associated Press; D. L. Lyman, New York Times; C. B. Allen, New York Herald-Tribune; Harry Franz, United Press, and W. W. Chapman of Universal Service.

Photographers took pictures of the Clipper and its passengers, causing a slight delay in the takeoff.

A fair-sized crowd was on hand but there were no ceremonies.

Captain Dahlstrom headed his craft down the bay and the Clipper lifted into the air, water sparkling from its glistening hull. The weather was calm, necessitating a slightly longer run before the Clipper arose.

A Woman's Intuition

Woman's intuition is traditional for its uncanny correctness. When a woman has a "hunch" about certain matters, it's worth listening to.

Such was the case of Mrs. Florence Clifton, wife of a carpenter at Geneseo, Ill. She had a hunch that the two men who wrecked their automobile while rounding a sharp curve at Hoopole, Ill. were the same men who had six hours earlier brutally assaulted her aunt at Jefferson, Iowa. Mrs. Clifton received the news of the assault by telephone a few hours after it happened. The next morning she picked up a paper at Moline and read of an accident in which a car was wrecked and the injured men held because they carried pistols and had \$500 in their possession.

Mrs. Clifton had often driven her own car over that route and knew six hours was just the proper time for traveling the distance. The men in the wrecked car were strikingly like the ones who committed the assault, according to the published description. Mrs. Clifton related her "hunch" to the sheriff of her county, who recognized it as logical. He went to the hospital, examined the injured men, and placed them under arrest for further investigation. The sheriff thinks they are undoubtedly the pair which committed the Iowa crime.

If the men are found guilty and sentenced, it will be a direct result of a woman's intuition and her intelligent use of it.

A High School Record

Enrollment in public high schools in Illinois is the highest on record, officials of the Illinois State Teachers' association have announced. The estimated enrollment is 368,690 as compared with 362,631 at the same time last year. Downstate high schools showed a 4.8 percent gain as compared to a 4.1 percent increase in Chicago.

One of the first suggestions at the cause for larger enrollments has been the economic conditions of the past few years. Thousands of young men and women who would have gone to work in industrial plants and other lines of business had there been opportunity, remained in school. But the growing realization that all young persons without a high school education face the world under a crushing handicap, probably accounts for the greater part of the increase.

There never has been a time when a high school education is as necessary to young men and women as now, with a half dozen graduates after every job. The old belief that with an eighth grade education and a lot of natural ability, determination and application, a boy or girl could compete with high school graduates is disappearing. No one longer doubts the value of those four years when the students are in their teens. There was once a time when it could be side-tracked in some instances, but that time is past.

High school enrollment in Illinois probably has struck a new high peak that will become permanent. It is doubtful if improvement in economic conditions will bring a reduction in the ranks of students. The last few years seem to have established in the minds of all persons, regardless of previous ideas about education, the part high schools play in modern life.

Children And Fires

This is officially called Fire Prevention Week. Like the old cry of "get out the vote," such a slogan as fire prevention often falls on deaf ears. Many persons regard the subject as stereotyped, something of a bore.

Attention is called to the importance of enlisting the children of the state and nation in the matter of preventing fires. Most of the fires occur in homes, and last year there were between 8,000 and 9,000 persons who lost their lives by fire, and 3,000 of them were children.

If properly called upon to aid in cleaning up fire hazards in the home, children could probably do more than adults. They can spot a place in the basement, kitchen or closets, which might be a perfect place for a blaze to originate. If the children are encouraged to help get rid of such places, the benefit of removal of causes of loss and tragedy cannot be estimated.

Every year fires cost on an average of \$3.90 for every man, woman and child in the United States. They don't cost so much in Europe, the average there being only 33c cents. Surely we ought to be as intelligent and as diligent as the people of Europe in abolishing fire hazards. The children can be of a great help.

THE SPOKEN WORD

BEHIND THE SCENES IN WASHINGTON

Both Parties Gird for That Last Big Campaign Smash . . . G. O. P. Expected to Flood Mails With Final "Warning" . . . Eleventh-Hour Radio Blast Said to Be Roosevelt Plan.

By RODNEY DUTCHER
Journal-Courier Washington Correspondent

New York—The best way to discover the secret campaign plans of a major party seems to be to hang around the opposition headquarters and see what the scouts and spies brought in.

One party's high command usually knows—or thinks it knows—just what coup the high command of the other party is about to perpetrate.

If the Republicans are ignorant of the nature of the spectacular grandstand play which they expect Roosevelt to pull off on the eve of election—as one gathers they are—it's a fair bet that the president and his advisers haven't worked that one out yet.

This writer's observation has been that the New Deal strategists have usually been only about one jump ahead of the gun in deciding where to place the next shot.

There's a fairly straight tip, however, that Roosevelt will deliver a last-minute radio blast aimed at alleged slush funds and at avalanches of delayed propaganda in the doubtful tier of states running from New York to Michigan.

That, however, will be a counter-attack in response to a major Republican effort of which Democrats have had advance notice.

Gigantic Drive By Mail

About 40,000,000 letters, according to tips received by Roosevelt leaders, will be mailed from G. O. P. sources to employees and stockholders in the last two or three days before election.

These, it is said, will be of the "scare" type and the mailing list will be taken from stockholder and payroll lists furnished by corporations and other employers. The idea would be to reach nearly every voter, offsetting favorable business views by forecasting disaster to business, employment, and investments in case of Roosevelt's re-election.

The story may be exaggerated, but Democrats are taking it seriously enough to be planning on a fast, punchy comeback from Roosevelt over a national hookup.

Similarly, they hope to offset effects of last-minute barages, such as circulation of 20,000,000 tabloids in doubtful states for which they understand the G. O. P. has let a \$300,000 contract, and, most of all, the effect of a great outlay of cash which they expect to be unleashed against them in the final clinches.

Center On Pennsylvania

Of course the Democrats, too, will empty their campaign chest into such states as Pennsylvania, New York, Ohio, and Illinois. But it is generally accepted that the Republicans have far more to spend.

Chairman W. B. Bell of the G. O. P. finance division long ago notified National Chairman John Hamilton, in case Hamilton didn't already know it, that the big money was to be saved for the last days, when it would be plunked into the key states.

According to Democrats in Pennsylvania, the biggest financial effort

Editor, Journal of the American Medical Association, and of Hygiene, the Health Magazine

At any season of the year, but particularly in summer, children may injure themselves with air guns, slingshots, or small rifles.

These devices are especially dangerous to the eye. Medical literature contains records of children who have lost their eyes because of a blow by BB shot or because BB shot entered the eyeball.

By use of the X-ray, it is possible to learn whether any metal has entered the eye. If the foreign material is clean, in the sense that it is free from germs, and if it is a part of the eye in which it does not obstruct vision, it may be left there for a considerable time without removal.

Usually, however, inflammation promptly results when a foreign substance has entered the eye, and the only thing to do is to remove the particle by surgical operation.

The explosion of gunpowder or of fireworks, including particularly firecrackers, torpedoes, and bombs, may damage the skin seriously and occasionally cause some foreign substance to penetrate the body cavities.

Whenever an injury from fireworks or gunpowder occurs, get a doctor as soon as possible. He will examine the wound, clean it, treat it with suitable antiseptics, and determine whether it is necessary to inject antitoxin against lockjaw, to prevent that disease.

It is not wise to wait until lockjaw develops; after that disease has once developed, it causes death in a considerable number of cases. The possibility of lockjaw is so great that many health departments provide antitoxin without charge for injection into people who have been exposed to the danger.

In certain cases the explosion of gunpowder causes black specks to penetrate the skin, and leaves a scar when the black material becomes imbedded in the skin. This scar is difficult to remove.

If immediate attention is given to such wounds, the gunpowder may be removed and the scarring prevented. If, however, there is too great a delay, it may be necessary to use various caustic substances to peel off the skin. In other cases it even may be necessary to remove the scarred tissue by a surgical operation, and to graft new skin over the surface.

Remember that all first aid is essentially amateurish and that early

will be made in the Keystone state. Political charges for public consumption are to be discounted and the assertion of Pennsylvania Democrats that Republicans are raising a five-billion-dollar fund for use at the polls Nov. 3 probably is just guesswork.

I.C. Dramatic Club To Give 3 One Act Plays Friday Night

Prof. Franchere and Mrs. Thompson Direct Plays to Be Shown Outdoors

Three one act plays, "Please Don't Pick the Flowers" by Babbitt Hughes, "Rising of the Moon" by Lady Gregory, and "Colombine" by Reginald Arkell, will be presented on the Woodland Stage on the Illinois College campus Friday night, weather permitting, by the college dramatic club. In case of inclement weather, the plays will be postponed.

Professor H. C. Franchere is directing work on "Please Don't Pick the Flowers," a sparkling comedy in which Melma Jean Ewert and Ray Becker play the "heart interest." Through the efforts of the Old Lady, Elizabeth Ruddy, their difficulties, which arise when they come together with the idea of telling each other that each has fallen in love with someone else, are finally brought to a happy conclusion.

Irish Patriotism
"Rising of the Moon," directed by Mrs. Paul Thompson, is a far different type of play. Lady Gregory was one of the Irish Nationalistic movement's leaders, and in this play, she

has made the "rising of the moon" significant of the coming of independence to the Emerald Isle. Frank Malinsky, as the Sergeant, and Earl Brown, as the Tramp, have the leads in the all-male cast.

A shift of mood, a bit of moonmadness, and the lights go up for "Colombine." Arkell's hair-brained, happy fantasy set in rustic England. Harle-

quin, Glen Freeman and Ralph Smith, Pierott, are scheduled to fight another in their series of nocturnal duels for the hand of Colombine, Margaret Cronan. When they refuse to "go into their dance," and make a stand for arbitration, their Colombine is outraged. The result is amusing.

Our weekly Electric Cooking School will be held today at 2 p. m., 2nd floor, Illinois Power and Light Bldg. Come.

Lucky for You — It's a Light Smoke!

...for a clear throat—a clear voice!

You—just as well as the stars behind the footlights, who must depend upon their voices—will find welcome throat protection in a light smoke—a Lucky Strike! For to every man, a clear, comfortable throat is a most important thing. And to every woman, the charm of a clear, mellow voice is something really precious. That is why to both men and women a light smoke means so much. It is only a light smoke—a Lucky—that offers them the protection of the famous "Toasting" process. And it is Luckies—a light smoke—made of the top-priced center leaves of the tobacco plant—that answer completely their desire for the richness of truly fine tobacco!

★ ★ NEWS FLASH! ★ ★

"Sweepstakes" Clubs Formed

All over the country, groups of enthusiastic fans tell us they are forming clubs to take part in Your Lucky Strike "Sweepstakes." One group of 43 members in Okmulgee, Oklahoma, poetizes as follows:

"We have picked with lots of patience
Songs we did and didn't like,
But now it's raining cigarettes
HURRAH FOR LUCKY STRIKE!"

Have you had the fun others are getting out of this great national cigarette game? Have you won your delicious Lucky Strike? There's music on the air. Tune in "Your Hit Parade"—Wednesday and Saturday evenings. Listen, judge, and compare the tunes—then try Your Lucky Strike "Sweepstakes."

And if you're not already smoking Luckies, buy a pack today and try them, too. Maybe you've been missing something. You'll appreciate the advantages of Luckies—A Light Smoke of rich, ripe-bodied tobacco.

ASK THOSE WHOSE VOICES ARE THEIR FORTUNES!
See how often you'll find Luckies, a light smoke, on the dressing table of stars! For those who count on their voices have learned they can count upon Luckies. Tonight—follow the stars to a light smoke—a Luckyl!

**FAVERLY COMPANY IS
NAMED IN SUIT HERE**

W. H. Rohrer and the Rohrer Livestock company have been named defendants in a suit brought by Clara Challans, in which Mrs. Challans asks that an injunction be granted to prevent the company from disposing of, transferring, or encumbering any of its property, or encumbering any of its property, and that the court set aside all conveyances of real estate and personal property made by W. H. Rohrer to the company.

The suit is the outgrowth of the sale of a note by W. H. Rohrer to Mrs. Challans, a widow, for \$3000. The suit claims that W. H. Rohrer guaranteed payment of the note, but that there is no property upon which the execution could be levied. The suit states that the defendant does have property subject to execution.

Clarence Neighbors was included in the number of visitors in the city yesterday from Murrayville.

Centenary Church To Observe Rally Day This Sunday

Day Will Also Be Voluntary
Pledge Day; Pastor Be-
gins Third Year

Sunday will be rally day and volun-
tary pledge day at the Centenary
Methodist church. An earnest appeal
has been made to all members to at-
tend this service, for which the pastor,
the Rev. McKendree M. Blair, and his

helpers are making special plans. The
needs of the church will be empha-
sized during the program.
Rev. M. M. Blair is beginning his
third year as pastor of Centenary
church with the cordial endorsement
of the members. The kindly interest
and sincere sympathy he and Mrs.
Blair have shown to both members
and friends during the past two years
has greatly endeared them to old and
young alike. It is the hope of all
that this will be the best year of their
service.
Last Sunday was marked by inter-
ested worshippers in all departments
and the pastor used as his subject,
"Being Alive to Beauty," which was
the first of a series of four dealing
with the beautiful in life. For the
coming three Sundays he will speak
on "Being Alive to the Church,"
"Being Alive to People" and "Being
Alive to God."

Miss Margaret Ellington sang as a
solo "The Peace of God" by Gounod
with tender beauty.
Miss Lillian Vesely of MacMurray
will direct the choir work this year
and the first rehearsal is planned for
Friday evening. Young people of the

church and students in the schools
and colleges will be welcomed in this
organization.

The Official Board will meet follow-
ing the Spiritual Enrichment service
tonight at which time reports on re-
pair work on the church property will
be made.

Saturday at 2:00 p. m. The King's
Heralds will meet with Earlyne and
Jane Walker, 641 South Prairie street.

NRS Field Workers Hold Meeting Here

J. W. Bergthold, Director of
Reemployment Service,
Speaks at Banquet

A. H. R. Atwood of Chicago, state
director of the Illinois State Employ-
ment Service, led the discussions Wed-
nesday at a conference of field work-
ers of the National Reemployment
Service held in the Dunlap hotel
banquet room. The conference was
held for the purpose of teaching proper
methods of handling the detail work of
the staff members in carrying on work
both in the office and in the field.

The conference, which attracted 40
persons from Adams, Brown, Schuyler,
Pike, Scott, Cass, Morgan, Greene,
Jersey, Calhoun, and Macoupin coun-
ties, closed last night with a dinner at
which J. W. Bergthold, state director
of the National Reemployment Service,
delivered the main address. The
banquet was held at the Dunlap
hotel.

Mr. Atwood, in his talk Wednesday,
outlined a definite program for the
workers to follow. Dr. L. Bartlett of
Champaign, supervisor of training for
both the national and state reemploy-
ment services, assisted by a team con-
sisting of H. C. Meyers of Chicago,
statistical supervisor of the state divi-
sion of the national service, and Rich-
ard Fletcher of Chicago of the Illinois
State Employment Service, and Wil-
liam Ramsey of Chicago, assistant
state statistical supervisor of the Na-
tional Reemployment Service, also
mapped out proper office and field
procedure.

Motorists driving over Route 104 to
the northwest will probably be using
the new Illinois river bridge at Mere-
dosia by Dec. 1, it was learned Tues-
day. The bridge is now complete, ex-
cept for the floor, which is being
poured this week. The 240-foot span
on the Meredosia side of the river is
practically complete now, and pour-
ing of concrete on the companion
span on the opposite side is expected to
be finished the latter part of the week.

Crews of concrete men will work
from both sides until the construction
of the floor is completed, which is ex-
pected to be finished the latter part of the week.

WAKE UP YOUR LIVER BILE—

Without Calomel—And You'll Jump Out of Bed in the Morning Rarin' to Go

The liver should pour out two pounds of liquid bile into your bowels daily. If this bile is not flowing freely, your food doesn't digest. It just decays in the bowels. Gas builds up your stomach. You get constipated. Your whole system is poisoned and you feel sour, sick and the world looks pink.

Laxatives are only makeshifts. A mere bowel movement doesn't get at the cause. It takes those good, old Carter's Little Liver Pills to get those two pounds of bile flowing freely and make you feel "up and up." Harmless, gentle, yet amazing in making bile flow freely. ELECTROLYSIS ENDS LIFE OF GAS MAINS

Blame Street Car Days for
Poor Condition of
Old Mains

Jacksonville's street car days, gone for several years, were blamed Wednesday for the condition of the mains being removed from the square by workmen prior to resurfacing operations.

The old mains have been crystallized by the action of electricity and have reached such a state of decomposition that it is possible to cut what was once good, firm iron with a jack-knife. Mahlon Gaumer, an employee of the Illinois Power and Light company said.

The first of the new pipes went into place when workmen attached a section of the main feeder line at the junction of North Main street and the square. The old pipe at this place crumbled when workmen put wrenches on it to disjoin it from the feeder line.

A force of about 25 men speeded up the removal of the old mains and the installation of the new. Another crew of workmen were hauling away the dirt as it is thrown from the ditch to the pavement.

The Illinois Power and Light company will excavate a slanting ditch about four feet wide all around the square. The ditch will be filled with gravel, and then sealed with concrete before the resurfacing operations begin.

GRACE M. E. CHURCH SOCIETY MEETS AT SWAIN RESIDENCE

The Women's foreign missionary society of Grace Methodist church held its regular monthly meeting at the home of Mrs. Hattie Swain, 617 W. College avenue, Tuesday at 3 o'clock. Mrs. Julia Hopper had the devotional period, after which there was a short business session.

This was the annual pledge party and Mrs. J. R. Edwards was the speaker. She told of her travel in China, as she and her husband visited mission station there. Mrs. H. L. Griswold then opened the year's study of the book on Africa, Congo Crosses, in a most interesting way, telling of life in that country and of its people.

At the close of the meeting, the hostesses under the leadership of Mrs. J. I. Graham had a recognition service for some members of the society who have served for many years. Mrs. S. O. Shuff, who joined the Ebenezer

society 51 years ago; Mrs. T. J. Pitner, a member of 47 years; Miss Hattie Patterson, 45 years; Mrs. J. R. Harker, 44 years; Mrs. Charles Hopper, 40 years, all were honored. Others who have long records include Mrs. Carrie Chase, Mrs. George Scrimmer, Miss Ida Lee, and Mrs. Hattie Jeffries, all over 40 years.

Miss Luella Blackburn introduced these ladies with beautifully appropriate remarks, some in verse, assisted by the Misses Carol McClelland, Mary

Ellison Roach, Mary Elizabeth Blackburn, and Gratia Beth Hall, also Mrs. Arthur Shenkel, who sang.

After the introductions, these ladies cut the cakes which had been brought to them and assisted in serving the guests.

Mr. and Mrs. E. T. Samples of the Orleans community were callers in the city yesterday.

World Series Baseball Players Scramble Out Of Big Town

Ivy Leaguers See Tough Week Ahead

Pittsfield Jimmed Up for Tilt With Railroaders; Jerseyville Ready

Football teams up and down the Illinois Valley conference are looking forward to this week-end with a bit more unusual interest largely because of the teams involved.

Although Jacksonville high isn't a member of the league, conference schools keep a close tab on the doings of the Crimsons because at some or other, most of the conference schools come in contact with Coach Frank Walker's teams. Friday afternoon the Crimsons will go to Winchester, and dopsters figure that this game is going to be one in which both teams will show themselves to a good advantage.

Winchester's fancy passing, never-say-die spirit, and its fast opening plays promise to be the Crimson defense. Jacksonville high on the other hand, showed it had a passing attack in winning from Girard, and that, coupled with a running attack, gives them the edge in the game—unless Winchester passes fall into waiting hands.

Roodhouse and Pittsfield expect to have one of those games this Friday night, but here again, one team seems to have the edge on the other—if Roodhouse is able to stop Pittsfield's fireworks. Pittsfield, with a light line and backfield held a heavier Carrollton team to a 13-7 score, and exhibited a throwing attack that kept the Hawks back on their heels at times.

Roodhouse will send a large delegation up to see the game, because Bob Wright, former Roodhouse High athlete, now Pittsfield's coach, has lost none of his popularity back home. In fact, there probably will be a lot of Roodhouse fans hoping that the Indians take Roodhouse to its limit, and beyond that, they have no hopes.

Coach Mason Campbell has a heavy and fast team at Roodhouse which should go places this year, barring injuries either mentally or physically. Carrollton has had a lot of fun in recent years in taking its annual game from Jerseyville, but reports indicate that Coach Creamer has something this year. Ringhausen, a 190-pound halfback, and a couple boys over 180 pounds in the line, will take away some of the weight advantage Carrollton has been enjoying in its conference games this far.

Jerseyville likewise is convinced that now is the time to bury Carrollton back for some of the defeats it has taken in the past, and with Johnny Gross, a veteran quarterback at the helm, they may turn in one of those mild upsets. Dopsters, too, are a bit cautious about picking a winner in this game.

The final conference tilt of the week will be played Saturday after-

noon when Pleasant Hill invades White Hall. Roodhouse took all the wind out of the Pleasant Hill sails last week-end, after a good start the week before and Coach Davidson's scrappy little bunch will waste into a game which appears to be as powerful as Roodhouse with a better understanding of how to go about handling the big boys.

Illini and Trojans May Use Two Teams

Trojans Reported to Have Strong Sophomore Team; Zupke Uses Two

Urbana, Ill. — Will Coach Bob Zupke decide to meet his old rival, Howard Jones, at his own game and alternate two teams against Southern California when the Trojans invade the Illinois stadium Saturday?

This is the question on every hand in the Illinois camp where Bob Zupke is throwing his 1936 machine into high gear in preparation for the big intersectional battle.

Against DePaul and Washington Zupke alternated two teams, each largely sprinkled with sophomores. Zup is not so well fortified with manpower as Jones for the headman of the Trojans is in the fortunate position of being able to send into the game one team practically all veteran and another all sophomore but apparently good enough to hold its own with the seasoned players.

In fact, some Los Angeles sports writers hold that the sophomore Trojans eleven is better than the veteran. Perhaps Zupke views the alternating influx of fresh against wearied players with so much alarm that he will meet with fire and follow suit.

Just when the fans begin to think this will be his policy they remember that on many of his eleven the players have been able to participate all or most of the time.

It is certain that the Illini will be outweighed by their Cardinal and Gold adversaries. Jones' "veteran" team averages 191 in the line and 180 in the backfield, with a team average of 187. The "sophomore" eleven will average 198 in the line and 189 in the backfield with a team average of 194. The Illini line will not average more than 180 and the whole team with certain combinations in the backfield will not reach that level.

Press reports from Los Angeles say that Jones will favor a wide open game and there is ground for this in the fact that against Oregon State and Oregon the Trojans threw the ball all over the lot. Against State they completed 18 out of 32 pass attempts, which is something. Jones' plays this year emerge from a new shift which has displaced his famous revolving formation.

Sam Barry, who scouted the Washington game for his chief, Jones, was

So. California "U." Team En Route East

To Play Illinois "U."; Out After Revenge

Los Angeles. — (P) — Determined to avenge a 19 to 0 defeat received last year, 39 University of Southern California football players, Head Coach Howard Jones and a retinue of Trojan faithful were enroute today for Champaign to wage battle with Illinois.

Nineteen sophomores were aboard the "Southern Pacific" train, making their first trip for a football game. At the last minute, Edward Stevenson, sophomore halfback, was added to the squad.

Ambrose Schindler, sophomore quarterback, provided the Trojans main concern. He has been troubled with a "charley horse" since the Oregon game last Saturday. Otherwise the squad was in good shape.

The team will work out at El Paso today, and at Dallas Thursday.

WISCONSIN PUBLIC ENJOYS FOOTBALL

Madison, Wis. — (P) — The new spirit which has fired the University of Wisconsin grid team since Coach Harry Stuhldreher assumed command isn't confined to the Badger players—it's evidently hit the Wisconsin public as well.

When 32,000 fans jammed Camp Randall for the Badger-Marquette game last Saturday it was the first sell-out of the field since 1928. The crowd also bettered by 10,000 persons the number ever to see the Badgers and Hilltoppers clash. There are 12,776 seats between the goal lines in the stadium and practically half of that number already have been sold for the Chicago and Minnesota games.

Impressed by the pass-catching talent of Bob Castello, Champaign sophomore and it may be accepted that the new end will be carefully watched. Barry is returning with the Trojans who have opportunities to work out at El Paso and Dallas.

Manager C. E. Bowen's ticket office is the busiest place on the campus but he assured all fans that there will be accommodations in the main stands even at the last minute Saturday. Customers who live in cities where there are branch ticket offices are advised to patronize them as the assortment is just as good as the main office here.

"No one need fear having to sit behind the goal posts," Bowen assured. "We expect a big crowd but there will be seats for everybody in the main stands along the sides of the field."

Baseball Magnates Await Judge Landis' Ruling In Pitcher Bob Feller Case

New York, Oct. 7. — (P) — The baseball world lifted its gaze from world series warfare today and centered it on a baby-faced kid of 17 and a grim, gray thatched judge, chief characters in one of the game's most stirring behind-the-scenes dramas.

As rival magnates crowded the sidelines, clutching bankrolls, eager for a chance to outbid each other, Kenesaw Mountain Landis, high commissioner of baseball, studied the amazing case of Bob Feller, sensational schoolboy pitcher from Van Meter, Iowa.

On the decision, awaited daily, hinge riches and defeat. The judge, a stern dictator who can't be bluffed by club owner or baseball star, had the alternatives of rendering one of these three decisions:

He can rule that Feller is the real property of the Cleveland Indians, in which uniform he started baseball with his 17 years, 11 months and 12 days.

He can rule Feller a free agent, open to deal with the club owner, who are ready to give him upwards of \$100,000 for just signing a contract.

Or the judge can rule the high school boy the property of the Des Moines Club of the Western League. As property of Des Moines, he again would be placed on the auction block

for the highest bidder.

The career of how he slipped through the clutches of big league scouts is almost as amazing as his first regular start on the mound for Cleveland when he fanned 15 St. Louis Browns and allowed them two hits last August 23. On September 13 he struck out 17 Philadelphia Athletics for a New American League record.

Feller, a stocky youngster of 185 pounds, was pitching for a Farmers' Union team in Iowa last year. From the start, his curves tantalized and bewildered the batters. Reaching the National Amateur Baseball Tournament in Rayton, Feller drew his first noticeable attention by striking out 18 in one game and 21 in another. Pat Donohue, former Detroit Tiger, rushed to tip Bill Evans, then general manager of the Indians, about the new pitching discovery. Beating 12 other scouts to the draw, the Indians signed Feller.

In keeping with the rules, Feller was turned over to Fargo-Moorhead of the Northern League, but a combination of circumstances prevented him from throwing a single ball for the northern leaguers. He was transferred to New Orleans without fanfare. New Orleans put him on the voluntarily retired list with an explanation that Feller had a sore arm.

Feller next drew attention by pitching for the Rosenblooms of Cleveland in a Class A amateur league. On July 7, the Indians gave him another chance and he responded by striking out eight St. Louis Cardinals batters over three innings of an exhibition game.

The fair trial to connect with Feller's puzzling slants, C. C. Slapnicka, successor to Evans as general manager of the Indians, immediately signed him to a Cleveland regular's contract and Feller was used in relief roles until the day of his great coming out party on Aug. 23.

Immediately, rival baseball men began to check back. Protests were filed with Commissioner Landis that Cleveland violated the rule by picking Feller up from the sandlots without any previous minor league experience.

Evans, it has been learned, has been requested by owner Tom Yawkey of the million dollar Boston Red Sox to "spare no expense" in landing Feller. Other clubs, notably the world championship New York Yankees, are vitally interested.

"He should be worth a million dollars," said Colonel Jacob Ruppert of the Yankees. "If he doesn't go to Cleveland, you can bet your life we'll get after him strong with a big offer."

If the Red Sox should get Feller, the club would be Evans' revenge on the great that fired him. Slapnicka's job would be in jeopardy, and Feller would be in the choicest spot of any youngster in baseball with thousands rolling his way—just for signing to play ball.

Coach S. Robey Burns has received word that final steps have been taken on the proposed project of making an athletic field out of the infield at the county fair grounds.

Burns had hoped that something would be done about that during the summer so that Illinois College and I. S. D. would have a good home field. Both home fields are terrible in wet weather.

Jacksonville high got on its new gridiron for the first time last Saturday when they handed Girard a 13-0 set-back. The J. H. S. athletic plant development is coming along nicely, and given a good growing year, their field should be one of the best in the state.

Bleachers have been erected out there for the convenience of the spectators. With a grandstand already available at the fair grounds, and enough protection against the elements to help just a little bit, the field there should be one of the most popular around here.

The development also calls for softball fields and tennis courts. Just how they will be arranged we're not certain, but the football field will have the center of the place.

Indications that there is going to be a lot of crowd-shooting in this part of the country were heard at the meeting of the Jacksonville Sportsman's club the other night. At least one of the boys has obtained a crowd call, because he reports having success with it just once out of several times he has used it.

Ernest May, president of the local chapter, tells of a new method to hunt fox. He gave the name of the man who follows this method, but just in case, we won't use it.

Anyway, this man hunts fox with a watch. The secret is that as soon as the man spots a fox, he determines which way the wind is blowing. If the wind is blowing from the fox to the

Blueboys Polish Up Pass Plays for Go

Pittman, Waffler and Dicenso Get Injuries; Fresh Work on Plays

Not many years ago it was the custom to work out two or three good pass plays, but now that there are so many students of the game working on its potentialities, a more wide open game has resulted. Illinois college's Blueboys, who are preparing for a night game against Cape Girardeau Teachers in Missouri this Friday night, spent yesterday afternoon polishing up their aerial attack, and at the same time they added a few more stunts to their already large repertoire.

Coach Ray Nussipickel will be without at least two reserves, and the freshmen, who are getting ready for visitors from Hannibal-LaGrange Junior college here Saturday, will be without another player as the result of injuries. Pittman, a West Frankfort end and tackle, suffered a broken nose, Waffler, a guard, sustained a split eyebrow, and Augie Dicenso had his chest injured, and all of the injuries are considered serious enough to keep the boys out of the games this week-end.

Pittman escaped having bandages placed across his face, but clamps had to be used to pull together the splits in Dicenso's and Waffler's faces. Waffler got his cut during a signal practice when he collided with Mike Zupich, who has a cut on his head as the result of coming in contact with a cleat in the game at Wesleyan.

Coach Willis Munger put his freshmen team through a hard work-out yesterday as he tuned the squad up for the game with the Hannibal-LaGrange eleven.

Illinois has taken two lickings from the Hannibal-LaGrange team in the last two years when its reserve team went to Hannibal. There is some difference between the reserves and the freshmen, however, in that the reserves have never been as closely knit as the yearlings appear to be. On the other hand, the yearlings are not expected to be as strong as the reserve squad.

Athletic Director LaRue Van Meter said yesterday that he has not received any direct information concerning the strength of the Missouri team, but recalled that last year a junior college eleven had a large number of freshmen. That indicated that the visitors would have an experienced team to toss against the Blueboy freshmen.

Munger hasn't made up his mind as yet on who he will recommend for the starting line-up, but it probably will include Ted Rammelkamp and Dick Hopper, former J. H. S. players. Trost and Peabody also will be in the starting line-up, and Dick Hartman, center on last year's J. H. S. team, probably will be the center on the freshmen team.

Granite City, Ill. — (P) — Irwin McMullen, New Douglas, Ill. postmaster, was recovering in a hospital here today after being rescued yesterday from the Mississippi River.

McMullen, found floundering in shallow water near the bank and suffering from exposure, said he remembered nothing since Sunday night when he was robbed by a man and woman in St. Louis.

Bill Lonergan of the Woodson community was among those transacting business in the city yesterday.

man, all is well. If it isn't, this person walks until he gets the wind on the right side of him, and then takes out his watch.

The big problem in fox hunting has been that of getting close to them. This hunter has found that when a fox lays down to take a nap, he does it for five minutes. So, our hunter waits until the fox lays down, and then runs as hard as he can for 4 1/2 minutes toward the fox. He stands perfectly still for the next five minutes while the fox wakes and looks around, and then, when the fox goes to sleep again, he begins running toward the fox again.

In this way, May tells us, the man is able to get close enough to the fox to get a good shot. There are a lot of "ifs" in this method of hunting a fox, but the story-teller declares his friend hunts foxes this way.

Leave Behind Assortment Of Conflicting Rumors And A Horde Of Second Guessers

Hornsby reported on the way out as manager of the Browns; (2), Chuck Dressen, Cincinnati pilot who supposedly does not fit into the scheme of Warren Giles, new general manager of the Reds; (3), Jimmy Wilson, Phillies manager, who is rumored to be tottering; and (4), Bill Terry, who is said to be moving into the Giants front office and turning his old job over to Bill McKechnie of the Boston Bees.

The ageless rumor that Col. T. L. Huston, former part-owner of the New York Yankees, would buy the Brooklyn Dodgers for a syndicate headed by the Reynolds tobacco interests, was partly spiked by Stephen W. McKeever, 81-year-old president of the Dodgers.

"I have not seen Col. Huston, he has never made me an offer, and the club is not for sale, roared McKeever.

This failed to agree, however, with a statement from Ford Frick, National League president.

"Huston offered \$1,500,000 for the Dodgers last spring," Frick said, "and the Colonel told me during the world series he still was interested."

McKeever made the only other official announcement of the day, saying Casey Stengel's successor as manager of the Dodgers would not be named for some time.

Commissioner K. M. Landis started the "e" us toward the hunting and fishing grounds. The Judge left for Burt Lake, Michigan, to fish for two or three weeks. Col. Ruppert, owner of the New York champions, and his business manager, Ed Barrow, will take a trip to the Adirondacks. After a week there they will return to New York, leaving again on election day for a month's vacation at French Lick, Ind.

Yankee Manager Joe McCarthy left word he was not to be disturbed. "I'm going to sleep for a week and then go hunting," he said.

Bill Terry, manager of the Giants, will stay in New York until he has completed the club's spring training schedule and then go to Memphis to rest and have his lame knee treated.

While most of the players relaxed, Joe DiMaggio prepared for the most frightening experience of his life—a vaudeville tour with his ball-playing brother, Vince, member of the San Diego Pacific Coast League team.

"I'm away behind on my tap dancing lessons," Joe said. "I gotta start working."

Vernon (Lefty) Gomez, who won two world series games for the Yankees, was on his way by automobile to Rodeo, Calif., where his mother, stricken during the series, is ill.

The series batting hero, Jake Powell, was the happiest man in town but he didn't stay around long. "Boy, I'm going home to Washington to see my wife and my little girl, Joan," he said, "and then we're all going on a vacation somewhere. This should be the happiest winter of my life. It was really a break for me when I was traded to the Yanks."

With the series over, the peddlers of legend were busy. Central figures in their stories were (1) Rogers

FAN BREEZES

By Ernest Savage

Coach S. Robey Burns has received word that final steps have been taken on the proposed project of making an athletic field out of the infield at the county fair grounds.

Burns had hoped that something would be done about that during the summer so that Illinois College and I. S. D. would have a good home field. Both home fields are terrible in wet weather.

Jacksonville high got on its new gridiron for the first time last Saturday when they handed Girard a 13-0 set-back. The J. H. S. athletic plant development is coming along nicely, and given a good growing year, their field should be one of the best in the state.

Bleachers have been erected out there for the convenience of the spectators. With a grandstand already available at the fair grounds, and enough protection against the elements to help just a little bit, the field there should be one of the most popular around here.

The development also calls for softball fields and tennis courts. Just how they will be arranged we're not certain, but the football field will have the center of the place.

Indications that there is going to be a lot of crowd-shooting in this part of the country were heard at the meeting of the Jacksonville Sportsman's club the other night. At least one of the boys has obtained a crowd call, because he reports having success with it just once out of several times he has used it.

In part Miss Proctor said: "One of the aims of this campaign is to bring new issues to and educate the rural areas. During the past summer, peace councils and peace study groups were formed in thirty states. Another major aim is to build up peace study groups in colleges, for it would be our generation whom war would affect. It is up to us, as Christian youth with convictions, to prevent war—from America and from the world."

Cass Grand Jurors Return 7 Charges In All-day Session

Two Plead Guilty to Burglary and Larceny; Others to Be Heard Saturday

Virginia—The grand jury of the October term of the Cass county Circuit court concluded a busy one-day session in the court house at Virginia Monday evening, returning seven true bills and two no-true bills.

Of the seven men indicted two immediately pleaded guilty and were sentenced by Judge A. Clay Williams to serve terms of from one year to life in the southern Illinois prison at Menard. These two were William Arnold, 34, of Kentucky and Virgil Sheels, 26, of Ohio. They pleaded guilty to charges of burglary and larceny at the home of C. E. Caldwell of near Virginia. They were arrested shortly after the alleged robbery.

Indicted for Embezzlement
Other indictments were returned as follows: Mose Salzenstein of Springfield was indicted on charges of embezzlement. Complaint against him

Wreck on Railway Baset by Strike Kills Two

Two men were killed and two were injured in this wreck when the engine and the cars at the head end of a Louisiana and Arkansas Railway train overturned after running through an open switch near Winnfield, La. The railway, beset by a trainmen's strike, was operating trains with outside crews. A student engineer on the locomotive said he saw a man throw the switch when the train was about 400 yards away. Officials of the line said the switch lock had been broken.

Fire Destroys Barn, One Horse on Farm West of New Berlin

Lightning Causes Disaster at the Fred Preston Home Tuesday Afternoon

New Berlin—A large barn on a farm a short distance west of here was struck by lightning and burned to the ground about 1 o'clock Tuesday afternoon. The farm is owned by Mrs. W. F. Fox of New Berlin and occupied by Fred Preston. One horse was burned to death in the barn, and a large quantity of grain and hay was destroyed.

Members of the Preston family were in the house and heard the crash of the lightning bolt. Mr. Preston went

to the porch, but could see nothing of the fire for a time. Finally he discovered smoke rolling from the barn. There were three horses in the barn. Two of them were led to safety, but the third was down in the stall. Mr. Preston thought it had been stunned by the bolt. Nothing could be done to save the animal.

The barn was filled with wheat and oats, timothy and clover hay and straw. There was no insurance on the contents, but the loss on the building is partially covered. The large amount of straw in the barn made the fire spread more rapidly and burn fiercely.

Our weekly Electric Cooking School will be held today at 2 p. m., 2nd floor, Illinois Power and Light Bldg. Come.

Meredosia is Port For Material Used At LaGrange Locks

Wabash Railroad and Barges to Handle Nearly 800 Cars in Two Years

Meredosia bids fair to again become a thriving river port, at least until the new LaGrange locks, nine miles up the river, are finished. The Kansas City Bridge Co., which has the contract for the construction of the locks, will ship all its materials to Meredosia via the Wabash and transport them by barge to the locks.

Extensive repairs and improvements are being made by the Wabash company to handle the increased traffic. Tracks have been laid from the main line to a point on the river where a landing harbor has been dredged for the loading of the barges.

The draw span of the railroad bridge is also being repaired and rebuilt. The old piling is being replaced, and the span itself will be renewed. The work on the bridge is now in progress.

Between 700 and 800 car loads of steel and other construction materials will be handled through the Meredosia port in the next two years. Huge barges will be used to float the supplies to the LaGrange project.

FOLIAGE FLOURISHES IN SPITE OF DROUGHT

Mrs. Elmer Moody Grows Big Plants in Flower Box

The severe drought the past summer did not prevent Mrs. Elmer Moody, residing northeast of the city, from having one of the finest flower boxes in the county. Three huge foliage plants and several small ones grew in the box, which was placed on the north side of the house. The plants grew about four feet high and made a handsome appearance.

The box with its luxuriant growth of foliage has been brought to the store of the Moody Implement Co. on South Main street, where it will be kept for the winter. It is hoped to keep the plants growing and free from frost.

Mrs. Moody started the box last spring with slips from foliage plants that had suffered much from the severe cold of the preceding winter. She did not know whether the tiny plants would live, but she persevered, and eventually got results. Placing the box on the north side of the house protected the foliage from the burning summer sun, and Mrs. Moody put several buckets of water on the plants each evening.

ROCKLYN FLEECE—The Topcoat That's Guaranteed to Take It!

ROCKLYN FLEECE was created specifically for the man who gives his coat the "third degree"—the man who has neither the time nor inclination to coddle it. Hang it on a hook; jam it under your seat in the movies; squeeze into a half inch of space in a concrete grandstand—and watch ROCKLYN come up smiling and smooth, without a wrinkle to mar its original smartness.

And stamina isn't the only virtue of a ROCKLYN! Soft and silky, it rests lightly on your shoulders, yet possesses sufficient body to withstand the most biting wind. It has the ease and comfort which marks a meticulously tailored coat . . . and the comforting adaptability to warm or cold days.

In a variety of correct single and double-breasted models in plain shades and patterns. To fully appreciate this Coat come in and feel the soft luxurious texture of ROCKLYN FLEECE. And then test it! . . . you can't wrinkle it. See then why we say ROCKLYN FLEECE is the "topcoat that's guaranteed to take it."

BUT OIL-PLATING LASTS...

Change today

Right you are. The weather hasn't made up its mind yet. But you don't care, once Conoco Germ Processed oil—patented—is Oil-Plating your engine for Winter.

Change to modern Oil-Plating today, for instance. Then every cylinder, piston, bearing and other part is completely Oil-Plated.

And today... tomorrow... next month... as long as you use Germ Processed, this Oil-Plating will still be up there. It gets there by means of the special "hyper-oily concentrate" which is alloyed into Germ Processed oil under patents. In circulating, this oil renews its genuine Oil-Plating, which doesn't return to the crankcase, but stays up all through your engine.

Thus the old cry of "get your right Winter viscosity" isn't the half of it, now that you can get exclusive Oil-Plating, too—a great big extra. Oil-Plating is all ready to lubricate before your starter even turns, and that lets your battery live. Oil-Plating doesn't run off in any weather, and that saves your engine and oil. You keep away from your next quart—your next battery—your next car, by changing today to Conoco Germ Processed oil. Continental Oil Company

Lukeman Clothing Company Purchases McGinnis Building

Expanding Business Creates Demand for More Room, Owner States

The Lukeman Clothing company, through J. Clarence Lukeman, owner, yesterday completed details for the purchase of the building formerly occupied by the McGinnis shoe store, located next to the present Lukeman Clothing company store on the east side of the square.
Mr. Lukeman said Wednesday that using the building are not yet complete, but stated that he planned to put in a new store front. He said his expanding business has made it necessary to acquire more room.
The purchase will give the Lukeman Clothing company a 60 foot frontage on the square. The sale was completed through Robert E. Harmon, executor of the estate of the late James McGinnis, who for many years operated a shoe store in the building. The Lukeman Clothing company owns buildings on both sides of the former McGinnis store.
The purchase price of the property was listed in the executor's deed as \$6,757.50.

Jerseyville Youth Asleep on Road is Killed Near Peoria

Duewell Dunham Meets Death When He Rolls on Slab; Companion Escapes

Peoria, Ill.—(P)—Sleeping beside the highway, Duewell Dunham, 18, of Jerseyville, Ill., rolled onto the road and was run over and killed by an automobile early Wednesday.
Francis Maguire, 16, of Jerseyville, told authorities he and Dunham lay down beside the highway on Route 9, about 16 miles south of Peoria, shortly before 2:30 a.m. They were hitchhiking home from Peoria.
Cecil Branchfield, East-Peoria, driver of the auto which struck Dunham, said he had dimmed his lights in meeting a truck when he saw the youth roll onto the road. He said he was unable to swerve and avoid the accident because of the coming truck.
An inquest was opened at Glasford, near the scene.

Preach, Teach And Evangelize Urges Baptist Minister

Rev. J. H. Hansen, Moderator, Gives Keynote Address Here Wednesday

Rev. J. H. Hansen, pastor of the East Park Baptist church, and moderator of the Springfield Baptist association now being held at the First Baptist church in this city, gave the keynote address of the gathering yesterday afternoon with a plea to "preach, teach and evangelize"—a plea that was extended to laymen as well as ministers if the sweeping program of Christian evangelism is to be a success.
The sermon of the young Decatur pastor was the climax of the meeting of thirty-five churches in this district which will conclude with a young people's service tonight after an all day program.
"A Message From the Mountains" was the basis for the address of Rev. Hansen as he pictured the vital commissions which Jesus gave his followers from mountain locations which became "mountain-top experiences." He had a word of admonition for churches content to progress "just a little" from year to year, enjoying the religious practices of their own groups while so many were outside of the scope of the preaching and teaching.

"I am going to make this figure high," Rev. Hansen said, "but I know that not 10,000 people in the city of Decatur attend Sunday morning church services. At least 50,000 never darken the doors of a church and have no means of hearing the Christian message. Also, fifty per cent of the population of the United States belongs to no religious sect or denomination. And yet we are content to minister among ourselves."
Teach and Preach.
The moderator carried his charge further, saying that the command of Jesus to teach and preach meant to teach and preach only one thing—His gospel, the message of redemption, Calvary's cross and the empty tomb. Preaching this gospel successfully means that the Bible must become the foremost guide book. The speaker said that when he used the word "preach" he was not referring specifically to preachers, but to the Baptist priesthood including every Christian in the congregation whose duty it was to bring this redemption to the lives of others.
The success of a church depends on full cooperation on this matter, he said. Committees have their use in a congregation, but they fall into the same discard with resolutions, church suppers and social gatherings if the Gospel of Jesus is not made the foundation of true Christian work. "Committees will never win the world to Christ," he said. "We need more personal soul winning and less 'hobbies' in our modern church work."

The afternoon session opened with prayer and praise service conducted by Rev. Leroy Kemp, pastor of the First Baptist church at Virden. Erland Ericson sang a vocal solo, "The Ninety and Nine," Campion, accompanied by Miss Doris Overbey of MacMurray College. The moderator's address followed.
The second message of the afternoon was given at 3:45 by Rev. James M. Livingsood, pastor of the First Baptist church, Mattoon, Illinois. His subject was "It Is Nothing to You."
Following a general discussion of the group adjourned. Dinner was served at the State Street Presbyterian church.
Musical numbers last night included a vocal duet by Miss Rhoda Olds and William Pierce Smith and also a musical prelude by the church choir. Rev. F. C. Cooper, pastor of the First Baptist church at Decatur, presented the devotional message at 7:30, followed by an inspirational sermon by Dr. S. H. Bowyer, Niantic, Illinois.
The Thursday program is as follows:

Election Board In New York Has Real Problem

Father Devine's Followers Register Under Their "Heavenly" Names

New York, Oct. 7.—(P)—Peace reigned at Father Devine's Harlem Heaven today but the board of elections was in a mild state of turmoil. Here are some of the names election officials found on the petitions of independent candidates who were favored by the Harlem "Angels."
Humble Peter, Holy Hannah, Flowery Bed of Peace, Love Love Love.
Also:
Merry Light, Peaceful Dove, Morning Star, Gladness Darling, Meek and lowly.
Not to mention:
Fateful John, Peaceful Lamb, Real Anxious, and Tree of Life.
It's a perennial problem. The authorities insist that the divine followers sign their real names. The divine followers insist that they have signed their real names.
Happy Boy Joy, Sunny Sonny, Wonderful Wisdom and 26 others were arrested at a Harlem polling place yesterday when they attempted to register under their "heavenly" names. They were dismissed in night court.
"God Is Father Divine," they shouted. "We are His children. Peace."
The board of elections hasn't decided about the petitions yet.
Divine—the Rev. Major J. Divine, Negro leader of the Harlem cult with a branch "heavens" in other cities—has up for determination in Supreme Court is appeal for the privilege of his followers to register under the names they adopted when they joined his group.

Many Convictions Here
"We have a common interest in enforcement of the criminal laws and all laws," the state's attorney said. The Anti-Thief association membership has always responded 100 per cent when called upon by my office to be of assistance in obtaining or presenting evidence."

Mr. Ashler cited the record of his office since 1932 to show that Morgan county is a safe territory for criminals. During the last 46 months there have been 235 criminal cases in the circuit and county courts, from which 230 convictions were obtained and five defendants were acquitted.

"Without your help, and the help of the law-abiding citizenry, judges and juries, this record could not have been made," the state's attorney declared. "Because of close cooperation on the part of the sheriff's office, police department and citizens such as are members of this organization, the criminal element is finding out that Morgan county is not a safe place for their operations."
Battles Rural Crime
The principle speaker of the evening was introduced by R. C. Saunders, who told something of Illinois' battle against rural crime. As in his address at the national A. T. A. convention Monday night, he pointed out that chicken stealing is the greatest problem farmers face. Thieves annually obtain more than a million dollars worth of poultry from Illinois farmers, which is more than is stolen from all banks in the United States during a year.
Entertainment numbers were provided by the Pawnee Four male quartet, voice pupils of Mrs. D. L. Hardin, director of Bryn's Business college conservatory, and dance pupils of Miss Virginia Smiley. All of the numbers were roundly applauded by the delegates.
F. A. Downey, president, will call the state convention to order again at 8:30 a.m. today for routine business and election of officers. A convention city for next year is to be selected.

Criminologist Tells A.T.A. Delegates How Science Fights Crime

(Continued from Page Twelve)
Brothers is now serving time for the crime, Keeler said.

He exhibited a series of slides illustrating the purpose of the polyscope, or lie detector. Mr. Keeler told of a number of cases, though not by name, in which the apparatus has been used with success. The reaction of individuals to a series of questions usually gives authorities a lead in "breaking" criminal cases.

John Dillinger had the skin of his fingers removed, but the operation could not cover up the tell-tale marks of identification, the expert said. Dillinger was identified after death in Chicago by 29 points of his fingerprints, whereas 9 are considered positive identification.

Services of the crime laboratory at Northwestern are widely sought, and Keeler's services as a speaker are difficult to obtain. Before coming to Jacksonville yesterday he testified in an important criminal case at Tuscola, Ill.

Carl E. Robinson was chairman of last night's meeting, and in opening the program stated that he has been a member of the A. T. A. for 20 years, holding high respect for its principles and purposes. He presented State's Attorney Ashler, who spoke briefly on "Crime Enforcement." He, too, is a member of the association.

Criminologist Tells A.T.A. Delegates How Science Fights Crime

Leonard Keeler, well known criminologist connected with the Northwestern University crime detection laboratories, told several hundred persons at the state Anti-Thief Association convention here last night why the law has turned to science in the battle against crime.

Enlarged photographs of fingerprints of John Dillinger; the brass portion of shotgun shells introduced as evidence in the Sacco-Vanzetti case, and machine gun bullets removed from bodies of Chicago's St. Valentine's day massacre, were thrown upon a screen as Keeler pointed out science's methods of convicting criminals.

American Legion Auxiliary Names Finance Teams

Plan Conference Caravan For Members of Unit Oct. 23

The American Legion Auxiliary at its meeting at the Legion Home last night made plans for financing the unit during the ensuing year. Teams have been formed to carry on the campaign.

Mrs. Kenneth Woods reported the unit had sent flowers for Mrs. Grady's funeral, Mrs. Grady having been a Star Mother.

It was announced that the department would again hold Conference Caravans as it did last year. Last year one conference was held in the Jacksonville Legion Home with a large number attending from various parts of the country. This year the nearest conference will be held at Springfield, October 23rd and every member is urged to attend if possible. Members who can furnish cars or who would like to go are requested to notify Mrs. Livengood.

It was reported that a card party is to be held at the Legion Home, October 12th, sponsored by two work units of the Auxiliary—chairman of the units are Mrs. Dean Tanner and Mrs. Henry Holler.

The attendance prize was won by Mrs. D. C. Livengood.

In order to make sufficient money to take care of the Auxiliary's budget for the year the finance chairman, Mrs. Fred Brockhouse and co-chairman, Mrs. Wm. Doolin, have decided to divide the Auxiliary into teams. There will be a contest among the teams. They will have until April 1st to make as much money as possible, then the winning team will be honored by a party given by the losing teams. Teams have been divided as follows: the first name on each team being the Captain.

Number One: Mesdames Kenneth Wright, Lorraine Strubinger, Roy McPherson, Donald Williamson, A. A. Martin, Harold McDougal, Elmer Anderson, Madge Barnes and Nina Gaskins.

Number Two: Mesdames Kenneth Woods, Glenn Sooy, C. C. Gustine, Ray Ryan, Mabel Dunay, Frank Eads, E. A. Hull, John Dalva, Chas. Weghoff and Irene Austin.

Number Three: Mesdames Robinson Strawn, Houston Cowgill, H. V. Knowles, Sylvia Killenrew, June Butler, Frank Robinson, George Vasconcelos, Fred Bolton, Jack Winstead, E. W. Bland and Harry Hamm.

Number Four: Mesdames Glenn Skinner, A. S. Armstrong, T. F. Craver, Mary Pieper, Zella Ingram, Clarence Walsh, W. L. Drake, Emma Eckles, Bernard Strongman, Lloyd Slaide.

Number Five: Mesdames Henry Holler, Walton Bland, J. C. Colton, Miss Claire Colton, Mesdames R. E. Bridges, Louis Hieronymus, Andrew Cobb, Grant Hughes, Ralph Cruzan, Victor Sheppard and Mary Newcomb.

Number Six: Mesdames Rex Klump, J. C. Mulch, John Taylor, J. A. Ray, Basil Sorrells, Hugh Green, John La Roche, Fay, John Klump, A. B. Applebee, Sybil Wilday.

Number Seven: Mrs. Wm. Doolin, Miss Rose Devlin, Mrs. Elizabeth Hefferman, Miss Agnes Shields, Miss Resa Walsh, Mrs. Theresa Walsh, Mrs. A. W. Becker, Mrs. Geo. Harvey, Mrs. Mary Kelly and Miss Emily Evans.

Number Eight: Mesdames E. M. Murphy, Reaugh Jennings, F. E. Peterson, Emil Brockhouse, Bertie Spaulding, Maria Daniels, Edward Litter, Floy Beemer, Wilbur Hauck, James Pope.

Number Nine: Hayden Walker, Frank Branslitter, Wilbur Rogers, Lawrence Oakley, Emma Good, Eve Jacobson, Orren Wright, Clarence Ratachak, George Brennan and Saleida Weider.

State Officers To Attend Institute Here Next Week

Mrs. Willis J. Burgess to Be In Attendance; Name Committees

Mrs. Willis J. Burgess of Chicago executive secretary of the Federation of Women's clubs, will attend the State Regional Institute to be held in Jacksonville, Friday, October 9, at the Central Christian church. Following the announcement that Mrs. William L. Farrell of Chicago, Federation director, Mrs. Edward J. Lehman, Sidney, state president, Miss Ellen Yockey, Taylorville, state vice-president, will be present at the Institute. Word has been received that Mrs. James Oliver, state treasurer and Mrs. Fred W. Waterson, state chairman of press and publicity will also be in attendance, together with the chairmen of many other departments, who will speak on the program and will hold conference during the afternoon for discussion of departmental work.

Mrs. Roy Davenport, president of the Morgan county Federation, states that all plans are nearing completion for an unusually fine Institute. Morgan county women are urged to show their interest in the program, since it is an opportunity, which not often comes to the city or the district. Reservations should be made with either Mrs. Davenport, Alexander or Mrs. John Reynolds, Jacksonville.

The following committees have been named to assist with the Regional Institute by the county president.

Described Laboratories
The speaker said nine persons are employed in the Northwestern laboratories, specializing in tests of blood, various forms of poison, handwriting, ballistics, finger prints and work with the polycope, commonly called the "lie detector."

"There really is no such apparatus as a lie detector," Mr. Keeler said. "That is a term invented by the newspapers. What is meant is a polycope; which is a device for registering the blood pressure, pulse frequency and respiration in reacting to certain emotions."

The criminologist told of the shooting of an Iowa farmer, who was murdered while reclining on a couch. His wife was the only person with him at the time, and claimed her husband committed suicide. The fatal revolver was taken to the laboratories and tests showed that the bullet had been fired from a distance of more than 20 inches from the man's head, a circumstance which led to conviction of the wife on a murder charge.

The cause of an explosion on an air liner flying between Chicago and Newark, N. J., was solved by scientific tests, Mr. Keeler said. Wreckage of the ship, which went down with a loss of several lives, was minutely examined. The tattered pieces of the ship's interior led investigators to believe that a bomb had exploded, and their theory was borne out by a mass of evidence. It was later determined that a gangster had placed a bomb in a towel cabinet to avoid arrest when he spied officers at an airport, and that the bomb had been hidden in the cabinet two weeks before it exploded.

The Lingle Murder Gun
A photograph of the revolver that killed Jack Lingle, Chicago Tribune reporter, was thrown upon the screen before the eyes of the A. T. A. delegates. Keeler pointed out how a person or persons had attempted to file off the serial numbers of the gun, which were later restored in the laboratories. Ownership of the weapon was traced over a period of several years, but its possession by any Brothers never was established, though

"Y" Subscriptions Pass \$2,000 Mark Reports Here Show

Report Meeting Is Held Wednesday at Dunlap Hotel

Increasing confidence in the ability of a group of determined men and women to achieve ultimate success in the "1936-37 Y.M.C.A. Forward Movement Campaign" was felt by the more than 60 workers present at the report meeting held in the New Dunlap Hotel last night when a report was made totaling \$2,089.65 for the second meeting. The total subscription handed in Wednesday was \$997.50.

One of the most encouraging features of the solicitation is the large number of subscribers who are materially increasing their gifts of last year. These increases being due to a clearer understanding of the breadth of the work of the Jacksonville association, and of the effective way in which it is meeting the great need of leisure-time activity, it is reported. The fact that during the past year the "Y" has had such a strong program of work for girls and women as well as for boys and men is adding greatly to its support by many friends.

Considerable rivalry is being developed by a series of awards being given for various forms of accomplishment for the awards being the donations of local business houses, secured by John Larson, of the committee on arrangements. The attendance award, donated by Hamilton's Confectionery, went to the women's division, of which Dr. Mary Louise Newman and Mary Postlewait are the co-chairmen and James Frye is the "sponsor."

The award to the man reporting the largest amount of subscriptions, presented to Prof. H. J. Stratton, was a tie from Myers Bros.; Mrs. Ellsworth Hopper's Shoe store for the woman reporting the largest amount. A key ring, from Mac's Clothes Shop, was awarded to Dr. Newman for the most pledges of \$10 or over reported by the team organization, while Miss Norma Perbix was given tickets to the Fox-Illinois for securing the most pledges on the "Club Plan."

Short "pep" talks were given by J. N. Conover and J. A. Walker, who stressed the fact that the workers are a part of a great sales organization, with something of great value to the community to "sell" to the contributing constituency. "As there are no financial 'profits' to be derived from the organization, it is a matter of showing the prospect what a great work is being accomplished on a 'cost' basis—a work of inestimable value to our community and with profit far beyond a dollar and cents standard," said Mr. Conover. "The reports of the work done show that where a reasonable number of prospects are seen, the results are forth-coming," said Mr. Walker.

General Chairman McClelland announced that the next report meeting would be Friday evening at 6:06 o'clock at the New Dunlap. All workers are urged to arrange to attend.

It is known that federal agents have visited Jacksonville and Winchester during the past few months searching for a man said to be Ernest Cumby. The agents did not reveal why the suspect was being sought, but a police circular at the local station indicated that he had escaped from a prison farm in Iowa. A \$50 reward was offered for his apprehension.

The circular said that Ernest Cumby was born in Winchester, Ill., June 23, 1907, and that his father, Earl Cumby was a resident of Oklahoma City, Oklahoma.

Baiting of Ducks Illegal No Matter When It Is Done

Federal Laws Supersede Anything to Contrary; Questions Answered

With November 1 and the duck shooting season rapidly approaching, many sportsmen have turned to various officials for interpretations of the laws, which because of state and federal combination, are highly complicated. Probably John Martin, United States warden, with headquarters at Peoria, is the best qualified official in this section of the state to interpret the laws. Mr. Martin has answered several of the most frequently asked questions about duck baiting, which are set forth as follows:

1. Is it all right to put out feed before the opening day of the hunting season (Nov. 1) and then shoot in the marsh at or near that spot?

Answer—This is illegal according to the law. I am checking on all places along the Illinois river, noting which are distributing bait and putting out decoys, taking samples of the bait and warning everybody to stop this practice. The government is going to enforce the law in its entirety. The law says no baiting, no use of artificial feed directly or indirectly to decoy ducks and geese.

2. Have you seen many duck shooting places that are putting out feed at this time?

Answer—Yes. I covered about 175 miles last week visiting many of the clubs and private duck shooting places along the Illinois. I have instructed my five men to warn places along the river that they are violating the law in putting out feed.

3. What about the Illinois department of conservation stating that hunters may do as they did last year...put feed in the marsh and then stay away about 200 yards when they wish to shoot?

Answer—I know the advice being given to shooters about it being legal to bait this fall if one stays 200 yards away from the bait. This is not the correct interpretation of the federal regulations. Baiting is out. The federal government has complete control over migratory birds and the regulations are plain on this baiting question. Shooters cannot take advantage of artificial feed or bait in any marsh, whether they are ten feet or 1,000 feet from such bait.

4. What is your plan for enforcement of these regulations? I expect to see close to 100 additional wardens on duty here starting the first of November to enforce the federal regulations. There are 37 deputies in the state now.

This is the way the federal wardens are interpreting and planning on enforcing the federal duck hunting regulations. On the other hand the Illinois department of conservation says it's all right with them if you put out bait and don't shoot closer than 200 yards to the feed. It's a case of taking your choice, Mr. Duck Hunter.

FIRE IS BROUGHT TO DEPARTMENT

The local fire department had a blaze brought to the department's door last night, when a Ford car driven by R. H. Mavis of this city drove up with the cushion in the rear seat of the automobile on fire. The flames were extinguished through use of an extinguisher.

Mrs. William Spaulding of the Woodson community was a Wednesday afternoon visitor in the city.

Ernest Cumby Is Being Questioned By Federal G-men

Identified As Man Who Cash-ed Checks Belonging To Missing Tourists

Dallas, Tex., Oct. 7.—(AP)—A suspect sought for over a year in the mysterious disappearance of four Illinois tourists in New Mexico was being questioned by federal bureau of identification agents here tonight.

An authoritative source said pictures of the suspect, Ernest Cumby, were identified as the man who cashed travelers' checks belonging to the missing tourists.

The tourists, Mr. and Mrs. Albert Heberer and Mr. and Mrs. George Lorus, of Illinois, were last seen at Vaughn, N. M., May 22, 1935, traveling west. Travelers checks on Lorus were subsequently cashed in various points in west Texas and at Dallas. The tourists' car was found here.

Frank Blake, chief of the federal bureau of investigation here, would not discuss the case, but admitted that the man who was being questioned had been sought for many months.

The suspect was brought here from St. Louis and entered a plea of guilty in U. S. district court on a charge of transporting a stolen automobile from Dallas to Tennessee. He was sentenced to a year and a day on the charge.

Federal Judge William H. Atwell ordered the man held here after an agent told him that the prisoner had been brought here primarily in connection with the Lorus-Heberer case.

A number of suspects have been detained previously in the case, but were released when evidence failed to connect them with the disappearance of the tourists.

It is known that federal agents have visited Jacksonville and Winchester during the past few months searching for a man said to be Ernest Cumby. The agents did not reveal why the suspect was being sought, but a police circular at the local station indicated that he had escaped from a prison farm in Iowa. A \$50 reward was offered for his apprehension.

The circular said that Ernest Cumby was born in Winchester, Ill., June 23, 1907, and that his father, Earl Cumby was a resident of Oklahoma City, Oklahoma.
